## DEATH IN A MINE!

Eight Workmen Lose Their Lives by  
a Fire in a Michigan Mine.

CALUMET, Mich., Nov. 30.—A fire was discovered in the eighth level of No. 3 shaft of the Calumet branch of the Calumet and Hecla mine this morning. A large party of men were working at the time of the fire, which, when discovered, had made such rapid headway that the smoke was very dense, and their lives were in great danger. All made a rush for the surface, but eight are missing. That they are dead is certain.

### A TERRIBLE TALE.

Murder of a Young Girl in Missouri  
by a Fiend.

St. Louis, Nov. 30.—The details of a horrible outrage, murder and suicide comes from Nevada, Mo. Yesterday Miss Ella Wray, aged twenty-one, belonging to one of the best families in that section, accompanied George Gorb, a district school teacher, to the city. Gorb returned and informed a brother of Miss Wray that the girl had been dragged from the buggy and murdered by two unknown men.

The body was found in a clump of bushes, near the roadside. The young woman's throat was cut from ear to ear. Gorb was placed under guard and during the night committed suicide by taking poison, thus escaping lynching. A coroner's inquest developed the fact that the girl had been outraged and then murdered.

THE SWITCHMEN'S GRIEVANCES.  
Railroad Officials Decline to Submit  
to Arbitration.

INDIANAPOLIS, Nov. 30.—The switchmen's strike shows no immediate prospect of settlement. If the engineers and firemen propose to strike with a view of forcing a settlement of the switchmen's grievances they seem to have concluded to wait a day.

The superintendents of several roads held another meeting yesterday and concluded to stand by the action of Wednesday when they replied to the joint committee of engineers, firemen and brakemen, stating that if they had any complaints of their own to arbitrate or adjust the superintendents would gladly meet them to talk over any grievances, but they declined to meet the committee in regard to the switchmen's grievances.

### IN THE HANDS OF TRAMPS.

Seventy Lawless Men Rioting in a  
New York Village.

ROCHESTER, N. Y., Nov. 30.—It was reported in this city last night that at a little Hamlet near Olean, on the line of the Buffalo, New York and Philadelphia railway, upward of seventy tramps made their appearance at an early hour, yesterday morning, and began to invade the town and ransack the dwellings.

Forty men with shot guns attacked them. Further assistance was asked of the surrounding towns. No more particulars could be learned.

### HRONEK'S TRIAL.

The Trial of the Dynamiter Still in  
Progress.

CHICAGO, Nov. 30.—In the Hronek trial to-day Mrs. Capek testified that the testimony of Chleboun, the informer, in regard to the meetings between Hronek and her husband were untrue.

### Offers a Reward.

RICHMOND, Va., Nov. 30.—Governor Lee has issued a proclamation offering \$1,000 reward for the apprehension of the party or parties engaged in the release of Wayman Sutton, convicted of murder, from the Wytheville jail. He was rescued Wednesday night by a large mob of masked men. The mob broke down the jail doors and carried the prisoner away without serious resistance.

A Waitress Falls Heir to \$3,000,000.

CHIPPWA FALLS, Wis., Nov. 30.—Miss Fannie Keeling, formerly a dining room girl in the Slawtey house in this city, was appraised this week that she had fallen heiress to a large estate in South America through the death of an uncle. The estate is estimated to be worth \$3,000,000. The lady is in New York looking after the matter.

### A Bank Suspends.

TOPEKA, Kas., Nov. 30.—A telegram states that the Wooddale state bank has been suspended. Its finances had not been judiciously managed and the institution had not been doing a profitable business for several months. D. W. Walker, who is a principal depositor, had an attachment served on the bank and all its property.

## TALKS OUT.

Ex-Senator McDonald Has His  
Notions About the Indiana Elec-  
tion—Fully One Million  
Dollars Spent for Il-  
legitimate Pur-  
poses.

NEW YORK, Nov. 30.—The World this morning publishes an interview had with Senator McDonald, of Indiana, last night, at the Fifth avenue hotel. The senator said that he believed Dudley wrote the "blocks of five" letter, and that he will be arrested as soon as he enters Indiana.

Fully \$1,000,000 was used in Indiana for illegitimate purposes, and the openness of the bribery was something unprecedented. The democrats of Indianapolis will make a strong effort to convict Dudley.

"There is no doubt of his guilt. The first paragraph of the letter is evidence of the criminal intent of the author. His offense is against the federal and not the state law, and the prosecuting attorney is, of course, a democrat. But the case will be tried before a republican judge. The penalty is fine or imprisonment, or both, but, under the circumstances, I suppose he will get off with a fine."

Colonel Dudley retorts by threatening to make exposures on democratic politicians.

### Knows More Than He Did.

WABASH, Nov. 30.—Natural gas played a number of pranks here yesterday and demonstrated its awful force when turned into the mains at a pressure of over 300 pounds. John Miller, a young lad, set fire to the escaping gas at a cut-off gate, and he was thrown, wrapped in a sheet of flame, nearly twenty feet. Had he landed on the gate he would have been cooked. The caulk was blown out of a joint near the river, at about the same time, and the tremendous roaring caused a great fright.

### Mysterious Murder in Connecticut.

NEW HAVEN, Conn., Nov. 30.—John King, a young law student, was shot and killed on Orchard street. The affair is a mysterious one, and up to a late hour the police had discovered no clue to the murderer. Stories are in circulation connecting King with a young lady, and with a married woman with whom it is alleged he has been intimate. These stories, if true, may account for the shooting.

### Careless Handling of Dynamite.

SANDUSKY, O., Nov. 30.—Albert L. Walker accidentally dropped two sticks of dynamite on the floor of his office here yesterday and a terrific explosion ensued, demolishing the interior of the building, tearing off both Walker's arms, and breaking four of his ribs and one leg. He died last evening.

### Cashier Tallman.

CHICAGO, Nov. 30.—Another indictment was returned by the grand jury this morning against Thomas Tallman, the late cashier of the bankrupt Traders bank. It was found under the same statute as that of last week, for receiving deposits knowing the bank to be insolvent.

### A Bird Match.

DAYTON, Ohio, Nov. 30.—A live bird match between Bandle and Heikes was finished this morning, with the weather cloudy. Heikes lost three more birds and Bandle lost one more. Bandle won the \$500 purse with a score of ninety-one to seventy-seven.

### The Weather.

WASHINGTON, Nov. 30.—Indiana—Slightly colder, threatening weather, with light rain or snow.

### The Deaths of Two Days.

Mr. Patrick Golden, of 32 Smith street, aged forty-eight years, died yesterday of consumption. His funeral will take place to-morrow morning from the Cathedral.

The one day old child of Mr. John Madden, of 37 West Williams street, died yesterday and was buried to-day.

Miss Anna Brown, aged twenty-one, the daughter of Mr. William Brown, of Arcola, died Wednesday, at the St. Joseph hospital of consumption. The funeral took place this morning.

Howard, the fifteen months old son of Mr. William Bender, 178 West Washington street, died yesterday and was buried to-day at Sheldon.

Mrs. Englert, the wife of Mr. George W. Englert, of 60 Smith street, died this morning of blood poisoning. The funeral will take place Sunday afternoon.

The four weeks old child of Mr. Edward Roemer, of 23 Julia street, died Wednesday and was buried yesterday.

See the match—Academy to-night.

## THEY USED PISTOLS!

Two Prominent Frenchmen Meet  
and Fight a Bloodless Duel,  
This Morning.

PARIS, Nov. 30.—The duel between M. Paul Deroulde and M. Reinach, editor of the *Republique Francaise*, took place this morning. Pistols were used. Four shots were exchanged, but neither of the combatants were hurt.

The trouble was caused by an article in the paper attacking Deroulde's guidance of the patriotic league.

### CONDENSED TELEGRAMS.

A drunken riot in the negro quarter of Savannah, Ga., caused the killing of one man and injuries to some other persons, black and white.

A person giving the name of Dickerson, but said to answer the description of Tascott, has been arrested in Menifee county, Ky., as the supposed murderer of Millionaire Snell.

There has been a heavy mail robbery at Ottawa, Ont., including registered letters from the United States.

Trainer Ed. Bither says Jay-Eye-See will undoubtedly recover from Tuesday's accident.

### BOTH SIDES.

The Story of the Alleged Brutality to  
John Shepherd.

Wednesday night John Shepherd, an Englishman in the employ of the Nickel Plate road, was intoxicated, and flourished a razor in the resorts about the south depot. Officer Frank Rohle was called and put the man under arrest. Shepherd was crazed by drink, fought like a tiger, and in the struggle both men fell, the prisoner striking his head against a curb stone, inflicting a slight cut. In attempting to take weapons from Shepherd's pockets fresh trouble was encountered, for the man was active and caught the officer by the throat. For this he was rapped over the knuckles, and this constitutes "the brutal clubbing" aired in a sensational way by the morning papers. City Attorney Colerick stepped into the police station later, and was attracted by the man's yells and dilapidated appearance. He did not relish the idea of Shepherd being locked up, and protested that the man should be cared for. Lieutenant Wilkinson knew the prisoner's condition and declined to liberate the man or let Mr. Colerick do so. Their difference led to the sensational story in the *Gazette*. Captain Diehl was at the station house a moment before Mr. Colerick entered and knows all the facts. But to make a funny story short, Shepherd was fined for drunkenness in the ordinary way yesterday and is now in jail serving a sentence. Lieutenant Wilkinson, who is one of the squarest and most upright men in the police service, courts an investigation and to Mayor Muhler last night demanded it. He will not, he says, submit to such accusations as the *Gazette* makes.

The *SENTINEL* declares for an investigation all along the line. Let it come right away.

### Whitney's Report.

WASHINGTON, Nov. 30.—Secretary Whitney presented his annual report to the president. After giving a brief review of the condition of the navy as it will exist on the 4th day of March, 1889, in comparison with the same as it existed on the 4th day of March, 1865, and furnishing a list of armed vessels heretofore authorized by congress, the secretary says: "So far as armored ships are concerned the subject is yet to be treated in a broad way by the department and by congress."

At the present time the conditions are such that everything necessary to a first-class fighting ship can be produced and furnished to the department in this country as soon as in the course of construction any element or feature is required, but this has never heretofore been true, and therefore, the consideration of the project has been necessarily postponed by the department until the present time.

We cannot at present protect our coast but we can return blow for blow for we shall soon be in a condition to launch a fleet of large and fast cruisers against the commerce of an enemy and to inflict a most serious and lasting injury thereon.

### Will Not Advance Coal.

PHILADELPHIA, Pa., Nov. 30.—The Philadelphia and Reading Coal and Iron company announces that it will make no change in the price of anthracite coal for December. Next Saturday it will shut down eighteen collieries and run about thirty-seven on three-quarters time.

Last evening thieves entered the residence of Mr. App, the boot and shoe merchant, on West Washington street, a brakeman on the Lake Erie and Western road, was caught between the bumpers and crushed to death.

LIMA, O., Nov. 30.—Yesterday, while coupling freight cars, Michael Freidel, a brakeman on the Lake Erie and Western road, was caught between the bumpers and crushed to death.

Last evening thieves entered the residence of Mr. App, the boot and shoe merchant, on West Washington street, and carried away a lot of wearing apparel. This morning a bundle of clothing was found near the west end gravel pit and the officers suspect that most of the articles were stolen from Mr. App.

Wrestling to-night at the Academy.

## THANKSGIVING.

Some Features of the Day in the City  
at the Hotels, Play Houses and  
Churches—The People in  
Gay Dress.

Fort Wayne put on holiday attire yesterday and the weather was something to be thankful for adding its mite to the numerous providential favors lavished on mankind.

The great railroad shops and the manufacturing were closed, public buildings were locked and at noon business was almost universally suspended, so that after dinner the streets were thronged with people attired in Thanksgiving toga.

Divine service was first to engage the attention of the people and to their credit, be it said, the churches were comfortably filled by Christian people, who united in grateful devotion to the ruler of the universe, linking with their thanks devout invocations for a continuance of heavenly blessings.

The festive and fuming turkey, augmented by the tempting grouse and the usual delicacies of the season, was uppermost in every mind as the dinner hour approached, save where poverty necessitated the sterner realities of life, and pity it is true, the poor we have always with us.

The hotels—the Wayne, Aveline, Railroad house, Rich and Brunswick, had sumptuous fares and were liberally patronized. Fireside feasts ran along from 1 to 6 o'clock and so on the day was one of pleasant rejoicing.

Professor Gilmore's matinee performance was a great attraction. The Princess rink was opened and roller skating was the craze all day and late into the night. The evening concert at the Temple again crowded the play house, while the Academy was equally as fortunate and a dozen public dances raged at as many halls.

The public houses, as is their custom, put on their most inviting aspect and a luncheon was a feature of every place, while fancy drinks and the milk punch served to rob the occasion of its true character.

But let us pull a veil over all of this and return to a theme more wholesome.

### RELIGIOUS SERVICES.

The religious services of the day were general among the different churches of the city, and, as a rule, the attendance was good. The three Presbyterian congregations held union services at the First Presbyterian church, where the sermon was preached by Rev. Leeper, while the Methodists united at the Simpson church to listen to a discourse from Rev. John Harden. The sermon at the Baptist church was preached by Rev. S. A. Northrop, and at the Grace Reformed by Rev. A. K. Zartman. Religious services were also held at the Lutheran, Reformed, Catholic, and several of the other churches, where eloquent and interesting sermons were preached.

The dinner following the services at the Grace church drew one of our religious reporters to that sanctuary, and we are thus able to speak more at length of REV. ZARTMAN'S DISCOURSE.

It was a practical and eloquent Thanksgiving sermon. After enumerating the reasons we, as a nation, had for being thankful to God, he mentioned some of the dangers that threatened our national prosperity, principal among which was the American saloon. This, he said, rose into prominence and towered above other evils, because it was a legalized sin, and was being nursed and petted by our law authorities. Like the serpent with which the child plays it only waits an opportunity to send its deadly fangs into its victim. It was a great and growing evil, he continued, one that was striking deep at the roots of our national existence and engulfing in its terrible and soul destroying influences thousands of our best young men.

The speaker mentioned some of the other evils that threatened our national liberty and closed with an eloquent and forcible plea for the spread of righteousness among the people as one of the means that would do much to check the evils of which he had spoken.

### Crushed to Death.

LIMA, O., Nov. 30.—Yesterday, while coupling freight cars, Michael Freidel, a brakeman on the Lake Erie and Western road, was caught between the bumpers and crushed to death.

Last evening thieves entered the residence of Mr. App, the boot and shoe merchant, on West Washington street, and carried away a lot of wearing apparel. This morning a bundle of clothing was found near the west end gravel pit and the officers suspect that most of the articles were stolen from Mr. App.

The Concordia college boys were out in force and the young man was remembered by several handsome presents.

Mr. J. F. Beegan, chief clerk for Mr. J. H. Bass, at the Rock Run furnaces, is in the city on a business trip. He is looking well and is pleased with his Alabama home. By the way, John McCain was a recent caller at Rock Run, and Mr. Beegan had not only to clothe John, but also swell his purse in order to rid himself of him. McCain was in the recent hotel fire at Chattanooga and almost burned to death. He was dragged from the flames.

### THE FROG THAT WANTED A KING.

In the good old days of old, the Frog, growing weary of a republican form of government and eager for a centralized power that would more promptly cope with the fishery question, determined to have a King. There were several aspiring princes out of a job at that time, but as they were competing for the Bulgarian throne which happened to be vacant, Jupiter, who read the Frog's thoughts easily, for they were set in long primer, dropped a basswood Log down into the lake and told them to put a crown on that.

The splashing which the Log made created the greatest consternation among the Frogs, who plunged into the mud and remained concealed so long that the price of frogs went up fifty per cent. at all the leading restaurants.

At length one Frog, bolder than the rest, and moreover desiring a government appointment, ventured to raise his head above the surface and take a peep at the newly made King. Other Frogs popped up, and finding that the Log made no movement they jumped upon it and treated it with the utmost contempt. Then they petitioned Jupiter for another and more active King.

Jupiter then assigned them a Stork, that had acquired a rare appetite for Frogs during a residence in Paris, and he began to devour them in the most ravenous manner, not even waiting to have them tried. This drove them nearly stork-mad, but there was no help for it, as Jupiter decided that no more of his appointments could be removed except for offensive partisanship during an election campaign.—*Texas Siftings*.

Roller skating is all the rage and the Princess rink will open its doors to-morrow afternoon and evening in response to the demand.

## The Reason Why

Ayer's Pills are so popular in this country, that they are always reliable as a cathartic medicine. They never leave any ill effects. This is because they are purely vegetable, and entirely free from calomel or any other dangerous drug. In all cases, therefore, whether the patient be old or young, they may be confidently administered.

In the Southern and Western States, where derangements of the liver are so general, Ayer's Pills have proved an invaluable blessing. D. W. Baine, New Bern, N. C., writes:

"I suffered a long time with stomach and liver troubles. I tried various remedies, but received no benefit until I commenced taking Ayer's Pills. These pills benefited me at once. I took them regularly for a few months, and my health was completely restored."

Throughout New England, next to lung diseases, Stomach and Bowel Complaints are the most prevalent.

### Dyspepsia

and Constipation are almost universal. Mr. Gallacher, a practical chemist, of Roxbury, Mass., who was long troubled with Dyspepsia, writes:

"A friend induced me to try Ayer's Pills, and, after taking one box without much benefit, I was disposed to quit them; but he urged perseverance, and, before I had finished the second box, I began to experience relief. I continued taking them, at intervals, until I had used eleven boxes. Suffice it to say, that I am now a well man, and grateful to your chemistry, which outstrips mine."

The head and stomach are always in sympathy; hence the cause of most of those distressing headaches, to which so many, especially women, are subject. Mrs. Harriet A. Marble, of Foughkeepsie, N. Y., writes that for years she was a martyr to headache, and never found anything to give her more than temporary relief, until she began taking Ayer's Pills, since which she has been in the enjoyment of perfect health.

FRIDAY, NOV. 30, 1888.

The official canvass of the vote of New Jersey gives Cleveland 181,493, Harrison 144,344, and Fisk 7,904. The plurality for Cleveland is 7,149.

The emperor of Germany sleeps, as did his grandfather, on an iron camp bed. He is subject to insomnia and often walks his room the entire night.

The supreme court of Pennsylvania has made a decision against the constitutionality of the mechanic's lien law of 1887, which gave workmen the right to file liens against a building for wages prior to other claims.

There is in New York no more tireless theatre-goer than Col. Bob Ingersoll. It is said by one who ought to know that he has seen over 100 performances this year. He is no more fond of comedy or spectacular pieces than of high tragedy, and he laughs constantly at the funny characters, or scenes, or passages.

New York is the mother of vice presidents. It has had Aaron Burr, one term, George Clinton two terms, Daniel H. Tompkins two terms, Martin Van Buren, Millard Fillmore, William A. Wheeler, Chester A. Arthur and Levi P. Morton, elected for one term each, though Fillmore and Arthur succeeded to the presidency in consequence of vacancies in that office. Out of one hundred years, since the first election of president, the vice president has been selected from New York forty years of that time.

PRESIDENT and Mrs. Cleveland return to the white house next week. It is understood that Mrs. Cleveland will somewhat extend the frequency and extent of her social entertainment in the direction of drawing rooms and luncheons. She will be "at home" to her friends on certain days, and will afford an opportunity to strangers in the city to pay respects as she arranged last winter and spring. It is not probable that she will inaugurate any of her social entertainments until the opening of the season on New Years day. The wife of the president has always appreciated the attentions shown her, and in a measure to show this appreciation, she is contemplating making the season the most memorable on her list for its quiet enjoyments.

The supreme court bar has appointed a committee, consisting of A. C. Harris, D. M. Bradbury, W. L. Taylor, John V. Scott and Judge Howard to open correspondence with Indiana lawyers for the purpose of learning their opinions relative to the method of relieving the supreme court. A general committee has also been appointed. It consists of General John Coburn, chairman, Indianapolis; John H. Baker, Goshen; Milton Bell, Kokomo; Judge John S. Stotsenberg, New Albany; Robert C. Bell, Fort Wayne; H. C. Fox, Richmond; David Kumler, Evansville. It will examine the opinions received by the correspondence committee, and will report recommendations at another meeting to be held in two or three weeks.

The death of Mrs. General Sherman adds another name to the list of illustrious women who have gone to their reward. Mrs. Sherman was Miss Ellen Ewing, daughter of Thomas Ewing, and was born in Lancaster, Ohio, in 1824. At the time of her marriage to Gen. W. T. Sherman in 1850, her father was secretary of the interior, appointed by Zachary Taylor. There is one daughter of the family besides the deceased—Mrs. C. F. Steele, of Columbus. Of the four brothers, Gen. Hugh and Judge Ewing, of Lancaster, and Gen. Thomas Ewing, of New York, survive. Gen. Charles Ewing died about two years ago. Mrs. Sherman was the mother of six children, all of whom are living: Mrs. Fitch, of Pittsburgh; Mrs. Thackeray, of Philadelphia; Thomas, a Roman Catholic priest, Tecumseh, in the law office of Hon. Wm. Everts, in New York, and the Misses Lizzie and Rachel, at home.

COL. D. S. ALEXANDER, of Buffalo, who was General Harrison's private secretary during the campaign, formerly edited the *Gazette* in this city. It was thought he would receive the same appointment after March 4th next, and serve the president through his administration. Upon being asked concerning this he says: "I came to Buffalo to engage in the practice of law with my old college classmate, James A. Roberts. I am very happy in my business relations; I like Buffalo as a place of residence and have no desire to relinquish my professional work for a position which at the end of four years would leave me no further advanced than I am at present. My views are known to Mr. Harrison, though no word ever passed between the general and myself in regard to accepting the place."

### THE LOCOMOTIVE'S SHERIFF!

The Bell Cord is Pulled and it starts a Whole Train Load of Railroad Items.

The Wabash and Pittsburg had a big travel yesterday.

Fred Norwald and Henry Fresh, of the Bass works, were off duty today.

A number of the railroad and shop employes spent Thanksgiving out of the city.

All the important new bridges which the Wabash railroad are building are arranged with double tracks.

The Nickel Plate road will make a considerable reduction in its road department force next Monday.

She wasn't very pretty  
And she wasn't very sweet,  
But her papa he had money,  
And she had Fort Wayne feet.

WALLY CARWELL.

Engineer Siddell and Fireman Wideman, who have been running the engine on the plug run between Fort Wayne and Toledo, have returned to Andrews, and will have charge of an engine on passenger trains Nos. 41 and 46.

The railroad reporter of THE SENTINEL extends his thanks to several of the employes of the Pittsburg shops for their kindly remembrance of him on Thanksgiving day, and especially to Mr. R. H. Harrison, the foreman of the machine department of the car shops.

A division of the Switchmen's Aid Mutual Association of North America has been organized at Terre Haute. It starts off with twenty-five members, and James B. Border was elected master of the division. The best feature about this association is that in case of death or total disability a member draws \$800.

The Mahoning and Dayton and Michigan railroad companies have effected a compromise, at Ottawa, Ohio. The Mahoning is to pay the Dayton and Michigan road \$2,000 for freight handled for it by the latter, and the former is permitted to run trains over the crossing unmolested. This settles the difficulty.

Grand Chief Arthur, of the Engineers' Brotherhood, denied at New York Tuesday a report that he was there to confer with Grand Master Sargent, of the Firemen, as to the policy of ordering strikes on western roads with which the two orders have differences. He said, however, that he was of the opinion that a general strike would not take place.

Nearly every road now has what is termed a "trade mark." The Pennsylvania has a keystone and the Bee Line a bee. It has become very common for a representative of a road to wear on the lapel of his coat a neat button bearing the distinguishing mark of the road which employs him. Especially among passenger men is this idea prevalent.

The Wabash company has heretofore had their Toledo telegraph office at the union depot, in the Wagner ticket office. A party of Wabash officials, consisting of G. W. Stevens, J. S. Stevens, and W. S. Morris were there yesterday to make arrangements to remove the office to some other portion of the building. It was decided to put the office in Train Master Clement's room and put in a joint operator. The change will be made about January 1.

Mr. Robert Cran, the pleasant foreman of the car wheel department of the Bass foundry, has reason to remember the Thanksgiving day of 1888. Yesterday was the anniversary of his marriage and it was ushered in by the appearance, early in the morning, of a bright-eyed, handsome girl baby, at his home. He now has a family of three interesting children. Mr. Cran was the recipient of a host of congratulations this morning when he made his appearance at the shops.

Mr. Thomas Craig, foreman at the Olds wheel works, met with a severe accident yesterday morning, while at work in the wheel rooms. A bundle of wheels fell from the top of a huge pile and piled themselves around his head in a promiscuous manner. He was injured in several places and one wheel struck him on the head, inflicting a severe scalp wound. He was rendered unconscious for a time, but recovered and is at work today. It was a narrow and lucky escape.

The New York, Mahoning and Western road effected a crossing with the Cincinnati, Hamilton and Dayton road, at Ottawa. The Cincinnati, Hamilton and Dayton people placed a gang of section men at the proposed intersection, but Haskell's men put in the frogs in spite of them, and at 3 o'clock in the afternoon an engine passed over the crossing. It is said the people of Ottawa would have turned out en masse to assist Haskell had the occasion required it. A guard of twelve men were left all night to keep the Cincinnati, Hamilton and Dayton from tearing up the crossing.

"Have you your life preserver?" she timidly inquired, looking trustfully into the face of her lover, as the little craft in which they were seated skimmed gracefully over the billows. "Oh, yes," he answered merrily: "see here," and he drew from his side pocket a bottle of Dr. Bull's Cough Syrup.

Four new brakemen were added to the extra list this week. Their names are: Gordon, Houtz, Seelitz and Flaherty.

**He Stole a Gold Watch and Got  
Eighteen Months in Prison.**

Yesterday, the officers were informed  
that Charles Sheehan purloined a watch  
from Ed McCallister, a patient at the  
St. Joe hospital, and besides the patient  
took \$1.80 from Bob Smith's pocket.  
Sheehan has been an inmate of the hos-  
pital and a troublesome one, but his  
career is at an end.

After securing the articles enumerated  
he came down town and displayed  
both the time-piece and money to a  
crowd at the Academy of Music. The  
news of the theft soon followed him and  
Sheehan was lodged behind the bars.  
He pleaded guilty to the mayor, was  
taken before Judge O'Rourke immedi-  
ately afterward and on a similar con-  
fession was sentenced to eighteen months  
in the penitentiary.

**NEW HAVEN NEWS.**

Where is Jones?  
Henry Linnemann is working at his  
trade.

Have we a fire department? Is every-  
thing in working order in case of fire?

Mrs. Jos. Gabet, who has been visit-  
ing at Kendallville, has returned home.

Chas. Bell is grading the levee and  
approaches to the bridge west of town.

Fred Shuckman is all smiles on ac-  
count of a sweet baby girl arriving at his  
house.

Maurice Lahey has accepted a posi-  
tion as fireman in the bucket factory, at  
Antwerp, Ohio.

Mrs. Thomas Hamilton left for Cherry  
Valley, N. Y., Wednesday, where she  
expects to make her future home.

Mr. and Mrs. L. M. Rogers and  
daughter, Jessie, who have been visit-  
ing friends at Huntington, returned  
home Monday.

A. R. Schnitker returned from Chi-  
cago Friday. He reports several former  
residents here, but now of the great  
western metropolis, prospering.

John Brooks, who has been a resi-  
dent of New Haven, for the past thirty  
years, died of lung fever, at 2 o'clock,  
Wednesday morning, after a short ill-  
ness. The funeral will take place Sun-  
day morning, at 11 o'clock. The Ma-  
sonic order will have charge, assisted  
by the G. A. R.

Who will our republican friends call  
on now, since Davy Jones left the  
country for parts unknown, to have whole-  
sale arrests made for imaginary provoca-  
tions. Davy's own statements are that  
he was "put up" in Rogers' store, the  
morning after the great republican "fiz-  
zle," to have the arrests made and the  
names were furnished him. They were  
not satisfied with the living, but wanted  
to have dead men arrested, men resting  
in their graves for three years—a fine  
way to make it appear that a political  
quarrel existed here. The facts are  
that Davy Jones had on two previous  
occasions begun quarrels here and the  
third time, the night of the "great fiz-  
zle," he got the worst of it. Jones says,  
"They promised to back me, which they  
did by letting me pay my own fine or  
go to jail when I was arrested. The re-  
publicans set a trap for democrats but  
caught a republican."

**NOW AND THEN.**

The worst feature about catarrh is its  
dangerous tendency to consumption.  
Hood's Sarsaparilla cures catarrh by  
purifying the blood.

Mr. R. S. Rutter, Warsaw; R. H.  
Hurlford and Bayard Gray, Portland;  
W. H. Schaab, E. W. Rauner, W. S.  
Raut and Harry Parent, Auburn, were  
among the guests at the Rich.

The annual report of the officers of the  
Michigan City prison shows that during  
the last year 364 convicts were received  
and 296 discharged from the peniten-  
tiary, leaving a net increase of 68. On  
the first of the present month the num-  
ber of prisoners was 702. Ten of the dis-  
charged prisoners were pardoned. The  
receipts and earnings of the institution  
were \$105,718.76. The cost of main-  
tenance was \$99,417.36. There is a  
cash balance on hand of \$9,042.64. The  
cost of feeding each convict is 12 1/2 cents  
a day; clothing each \$5.87 1/2, and fuel,  
\$7.17 1/2-5.

A gentleman well known and largely  
engaged in the drug trade remarked:  
"Pond's Extract is a priceless remedy  
for piles. I have been fifteen years a  
martyr to them. I suffered everything  
but death. I tried all the most cele-  
brated doctors, and look here," said he,  
as he opened a closet containing hun-  
dreds of empty bottles and boxes. "I  
took and applied all that cupboard of  
trash without benefit. Nothing helped  
me until I found Pond's Extract, and  
that cured me. I have now been well  
for years, but I keep that closetful of all  
the old bottles to show how much a man  
may suffer and take." Like other good  
things, Pond's Extract has been imita-  
ted. Avoid these worthless imitations.

all of the great World's Fairs, since that of

**USEFUL COLORS.**  
A variety of useful colors and dyes, says the Oil Trade Reporter, may be obtained from common plants growing in abundance everywhere. The huckleberry and blueberry, boiled with a little alum and a solution of copperas, will develop an excellent blue color; treated in the same manner with solution of nutgalls, they produce a clear dark-brown tint; while the alum, verdigris, and sal ammoniac various shades of purple and red can be obtained. The fruit of the elder will also produce a blue color when treated with alum. The privet, boiled in a solution of salt, furnishes a serviceable color, and the over-ripe berries yield red. The seeds of the common burning bush, when treated with sal ammoniac, produce a beautiful purple red. The bark of the currant bush treated with a solution of alum produces a brown. Yellow is obtained from the bark of an apple tree, the box, the ash, the buckthorn, poplar, elm, etc., when boiled in water and treated with alum. A lively green is furnished by the broom corn.

Prof. Gilmore and his company delighted the patrons of the Temple yesterday and gave two grand concerts. Everything was in Gilmore's best style, the music was arranged to please every ear, and there was variety enough for every taste. In response to the request of Mayor Muhler and Mrs. John Mohr, the leader introduced the Boulanger March and Student's Patrol. The soloists were all recalled and this, of course, served to further popularize the program. But it is needless to go further with Gilmore and his company of artists. They met every expectation and fulfilled every wish. The professor might improve his staff of vocal soloists, but even that would be difficult and expensive.

## DEATH IN A MINE!

Eight Workmen Lose Their Lives by  
a Fire in a Michigan Mine.

CALUMET, Mich., Nov. 30.—A fire was discovered in the eighth level of No. 3 shaft of the Calumet branch of the Calumet and Hecla mine this morning. A large party of men were working at the time of the fire, which, when discovered, had made such rapid headway that the smoke was very dense, and their lives were in great danger. All made a rush for the surface, but eight are missing. That they are dead is certain.

### A TERRIBLE TALE.

Murder of a Young Girl in Missouri  
by a Friend.

St. Louis, Nov. 30.—The details of a horrible outrage, murder and suicide comes from Nevada, Mo. Yesterday Miss Ella Wray, aged twenty-one, belonging to one of the best families in that section, accompanied George Gorb, a district school teacher, to the city. Gorb returned and informed a brother of Miss Wray that the girl had been dragged from the buggy and murdered by two unknown men.

The body was found in a clump of bushes, near the roadside. The young woman's throat was cut from ear to ear. Gorb was placed under guard and during the night committed suicide by taking poison, thus escaping lynching. A coroner's inquest developed the fact that the girl had been outraged and then murdered.

### THE SWITCHMEN'S GRIEVANCES.

Railroad Officials Decline to Submit  
to Arbitration.

INDIANAPOLIS, Nov. 30.—The switchmen's strike shows no immediate prospect of settlement. If the engineers and firemen propose to strike with a view of forcing a settlement of the switchmen's grievances they seem to have concluded to wait a day.

The superintendents of several roads held another meeting yesterday and concluded to stand by the action of Wednesday when they replied to the joint committee of engineers, firemen and brakemen, stating that if they had any complaints of their own to arbitrate or adjust the superintendents would gladly meet them to talk over any grievances, but they declined to meet the committee in regard to the switchmen's grievances.

### IN THE HANDS OF THIEFS.

New York Village.

ROCHESTER, N. Y., Nov. 30.—It was reported in this city last night that at a little Hamlet near Olean, on the line of the Buffalo, New York and Philadelphia railway, upward of seventy tramps made their appearance at an early hour, yesterday morning, and began to invade the town and ransack the dwellings.

### A Waitress Falls Heir to \$3,000,000.

CHICAGO FALLS, Wis., Nov. 30.—Miss Annie Keeling, formerly a dining room girl in the Slawley house in this city, was appraised this week that she had fallen heiress to a large estate in South America through the death of an uncle. The estate is estimated to be worth \$3,000,000. The lady is in New York looking after the matter.

### A Bank Suspended.

TOTOKA, Kan., Nov. 30.—A telegram states that the Wooddale state bank has been suspended. ## TALKS OUT.

Ex-Senator McDonald Has His  
Notions About the Indiana Elec-  
tion—Fully One Million  
Dollars Spent for Il-  
legitimate Pur-  
poses.

NEW YORK, Nov. 30.—The World this morning publishes an interview had with Senator McDonald, of Indiana, last night, at the Fifth avenue hotel. The senator said that he believed Dudley wrote the "blocks of five" letter, and that he will be arrested as soon as he enters Indiana.

Fully \$1,000,000 was used in Indiana for illegitimate purposes, and the openness of the bribery was something unprecedented. The democrats of Indianapolis will make a strong effort to convict Dudley.

"There is no doubt of his guilt. The first paragraph of the letter is evidence of the criminal intent of the author. His offense is against the federal and not the state law, and the prosecuting attorney is, of course, a democrat. But the case will be tried before a republican judge. The penalty is fine or imprisonment, or both, but, under the circumstances, I suppose he will get off with a fine."

Colonel Dudley retorts by threatening to make exposures on democratic politicians.

### Knows More Than He Did.

WABASH, Nov. 30.—Natural gas played a number of pranks here yesterday and demonstrated its awful force when turned into the mains at a pressure of over 300 pounds. John Miller, a young lad, set fire to the escaping gas at a cut-off gate, and he was thrown, wrapped in a sheet of flame, nearly twenty feet. Had he landed on the gate he would have been cooked. The caulking was blown out of a joint near the river, at about the same time, and the tremendous roaring caused a great fright.

### Mysterious Murder in Connecticut.

NEW HAVEN, Conn., Nov. 30.—John King, a young law student, was shot and killed on Orchard street. The affair is a mysterious one, and up to a late hour the police had discovered no clue to the murderer. Stories are in circulation connecting King with a young lady, and with a married woman with whom it is alleged he has been intimate. These stories, if true, may account for the shooting.

### Careless Handling of Dynamite.

SANDUSKY, O., Nov. 30.—Albert L. Walker accidentally dropped two sticks of dynamite on the floor of his office here yesterday and a terrific explosion ensued, demolishing the interior of the building, tearing off both Walker's arms, and breaking four of his ribs and one leg. He died last evening.

## THEY USED PISTOLS!

and Fight a Bloodless Duel,  
This Morning.

PARIS, Nov. 30.—The duel between M. Paul Derouille and M. Reinach, editor of the *Republique Francaise*, took place this morning. Pistols were used. Four shots were exchanged, but neither of the combatants were hurt.

There has been a heavy mail robbery at Ottawa, Ont., including registered letters from the United States.

### BOTH SIDES.

The Story of the Alleged Brutality to  
John Shepherd.

Wednesday night John Shepherd, an Englishman in the employ of the Nickel Plate road, was intoxicated, and flourished a razor in the resorts about the south depot. Officer Frank Rolfe was called and put the man under arrest. Shepherd was crazed by drink, fought like a tiger, and in the struggle both men fell, the prisoner striking his head against a curb stone, inflicting a slight cut. In attempting to take weapons from Shepherd's pockets fresh trouble was encountered, for the man was active and caught the officer by the throat. For this he was rapped over the knuckles, and this constitutes "the brutal clubbing" aired in a sensational way by the morning papers.

City Attorney Colerick stepped into the police station later, and was attracted by the man's yells and dilapidated appearance. He did not relish the idea of Shepherd being looked up, and protested that the man should be cared for. Lieutenant Wilkinson knew the prisoner's condition and declined to liberate the man or let Mr. Colerick do so. Their difference led to the sensational story in the *Gazette*. Captain Diehl was at the station house a moment before Mr. Colerick entered and knows all the facts. But to make a funny story short, Shepherd was fined for drunkenness in the ordinary way yesterday and is now in jail serving a sentence. Lieutenant Wilkinson, who is one of the squarest and most upright men in the police service, courts an investigation and to Mayor Muhler last night demanded it. He will not, he says, submit to such accusations as the *Gazette* makes.

THE SENTINEL declares for an investigation all along the line. Let it come right away.

### Whitney's Report.

WASHINGTON, Nov. 30.—Secretary Whitney presented his annual report to the president. After giving a brief review of the condition of the navy as it will exist on the 4th day of March, 1889, in comparison with the same as it existed on the 4th day of March, 1865, and furnishing a list of armed vessels heretofore authorized by congress, the secretary says: "So far as armored ships are concerned the subject is yet to be treated in a broad way by the department and by congress."

At the present time the conditions are such that everything necessary to a first-class fighting ship can be produced and furnished to the department in this country as soon as in the course of construction any element or feature is required, but this has never heretofore been true, and therefore, the consideration of the project has been necessarily postponed by the department until the present time.

We cannot at present protect our coast but we can return blow for blow for we shall soon be in a condition to launch a fleet of large and fast cruisers against the commerce of an enemy and to inflict a most serious and lasting injury thereon.

### Will Not Advance Coal.

## THANKSGIVING.

Some Features of the Day in the City  
at the Hotels, Play Houses and  
Churches—The People in  
Gay Dress.

Fort Wayne put on holiday attire yesterday and the weather was something to be thankful for adding its mite to the numerous providential favors lavished on mankind.

The great railroad shops and the manufacturing were closed, public buildings were locked and at noon business was almost universally suspended, so that after dinner the streets were thronged with people attired in Thanksgiving togs.

Divine service was first to engage the attention of the people and to their credit, be it said, the churches were comfortably filled by Christian people, who united in grateful devotion to the ruler of the universe, linking with their thanks devout invocations for a continuance of heavenly blessings.

The festive and funning turkey, augmented by the tempting grouse and the usual delicacies of the season, was uppermost in every mind as the dinner hour approached, save where poverty necessitated the sterner realities of life, and pity it is true, the poor we have always with us.

The hotels—the Wayne, Aveline, Railroad house, Rich and Brunswick, had sumptuous fares and were liberally patronized. Fireside feasts ran along from 1 to 6 o'clock and so on the day was one of pleasant rejoicing.

Professor Gilmore's matinee performance was a great attraction. The Princes rink was opened and roller skating was the craze all day and late into the night. The evening concert at the Temple again crowded the play house, while the Academy was equally as fortunate and a dozen public dances raged at as many halls.

The public houses, as is their custom, put on their most inviting aspect and a luncheon was a feature of every place, while fancy drinks and the milk punch served to rob the occasion of its true character.

But let us pull a veil over all of this and return to a theme more wholesome.

### RELIGIOUS SERVICES.

The religious services of the day were general among the different churches of the city, and, as a rule, the attendance was good. The three Presbyterian congregations held union services at the First Presbyterian church, where the sermon was preached by Rev. Leeper, while the Methodists united at the Simpson church to listen to a discourse from Rev. John Harden. The sermon at the Baptist church was preached by Rev. S. A. Northrop, and at the Grace Reformed by Rev. A. K. Zartman. Religious services were also held at the Lutheran, Reformed, Catholic, and several of the other churches, where eloquent and interesting sermons were preached.

The dinner following the services at the Grace church drew one of our religious reporters to that sanctuary, and we are thus able to speak more at length of REV. ZARTMAN'S DISCOURSE.

It was a practical and eloquent Thanksgiving sermon. After enumerating the reasons why, as a nation, had for being thankful to God, he mentioned some of the dangers that threatened our national prosperity, principal among which was the American saloon. This, he said, rose into prominence and towered above other evils, because it was a legalized sin, and was being nursed and petted by our law authorities. Like the serpent with which the child plays it only waits an opportunity to send its deadly fangs into its victim. It was a great and growing evil, he continued, one that was striking deep at the roots of our national existence and engulfing in its terrible and soul destroying influences thousands of our best young men.

The speaker mentioned some of the other evils that threatened our national liberty and closed with an eloquent and forcible plea for the spread of righteousness among the people as one of the means that would do much to check the evils of which he had spoken.

### Crushed to Death.

LIMA, O., Nov. 30.—Yesterday, while coupling freight cars, Michael Frodel, a brakeman on the Lake Erie and Western road, was caught between the bumpers and crushed to death.

Last evening thieves entered the residence of Mr. App, the boot and shoe merchant, on West Washington street, and carried away a lot of wearing apparel. This morning a bundle of clothing was found near the west end gravel pit and the officers suspect that most of the articles were stolen from Mr. App.

The Concordia college boys were out in force and the young man was remembered by several handsome presents.

Mr. J. F. Beegan, chief clerk for Mr. J. H. Bass, at the Rock Run furnaces, is in the city on a business trip. He is looking well and is pleased with his Alabama home. By the way, John McCain was a recent caller at Rock Run, and Mr. Beegan had not only to clothe John, but also swell his purse in order to rid himself of him. McCain was in the recent hotel fire at Chattanooga and almost burned to death. He was dragged from the flames.

### THE FROG THAT WANTED A KING.

In the good old days of old, the Frog, growing weary of a republican form of government and eager for a centralized power that would more promptly cope with the fishery question, determined to have a King. There were several aspiring princes out of a job at that time, but as they were competing for the Bulgarian throne which happened to be vacant, Jupiter, who read the Frog's thoughts easily, for they were set in long primer, dropped a basswood Log down into the lake and told them to put a crown on that.

The splashing which the Log made created the greatest consternation among the Frogs, who plunged into the mud and remained concealed so long that the price of frogs went up fifty per cent. at all the leading restaurants.

At length one Frog, bolder than the rest, and moreover desiring a government appointment, ventured to raise his head above the surface and take a peep at the newly made King. Other Frogs popped up, and finding that the Log made no movement they jumped upon it and treated it with the utmost contempt. Then they petitioned Jupiter for another and more active King.

Jupiter then assigned them a *Stork*, that had acquired a rare appetite for Frogs during a residence in Paris, and he began to devour them in the most ravenous manner, not even waiting to have them fried. This drove them nearly stork-mad, but there was no help for it, as Jupiter decided that no more of his appointments could be removed except for offensive partisanship during an election campaign.—*Texas Siftings*.

Roller skating is all the rage and the Princes rink will open its doors to-morrow afternoon and evening in response to the demand.

The fruit of the elder will also produce a blue color when treated with alum. The privet, boiled in a solution of salt, furnishes a serviceable color, and the over-ripe berries yield red.
